5COSC025W Seminar 2

2024-25

Further Activities

Following from Introduction to Axure Part I pdf file, we can now try to put together what we covered (in a new Axure file).

From Blackboard, download and open the following Axure RP file:

Website Start Here.rp

On Blackboard (Seminar 2 page), click the link **Website Completed** to see an example of how the completed website might look and then try to recreate this starting from *Website Start Here.rp* and after going through the previous activities.
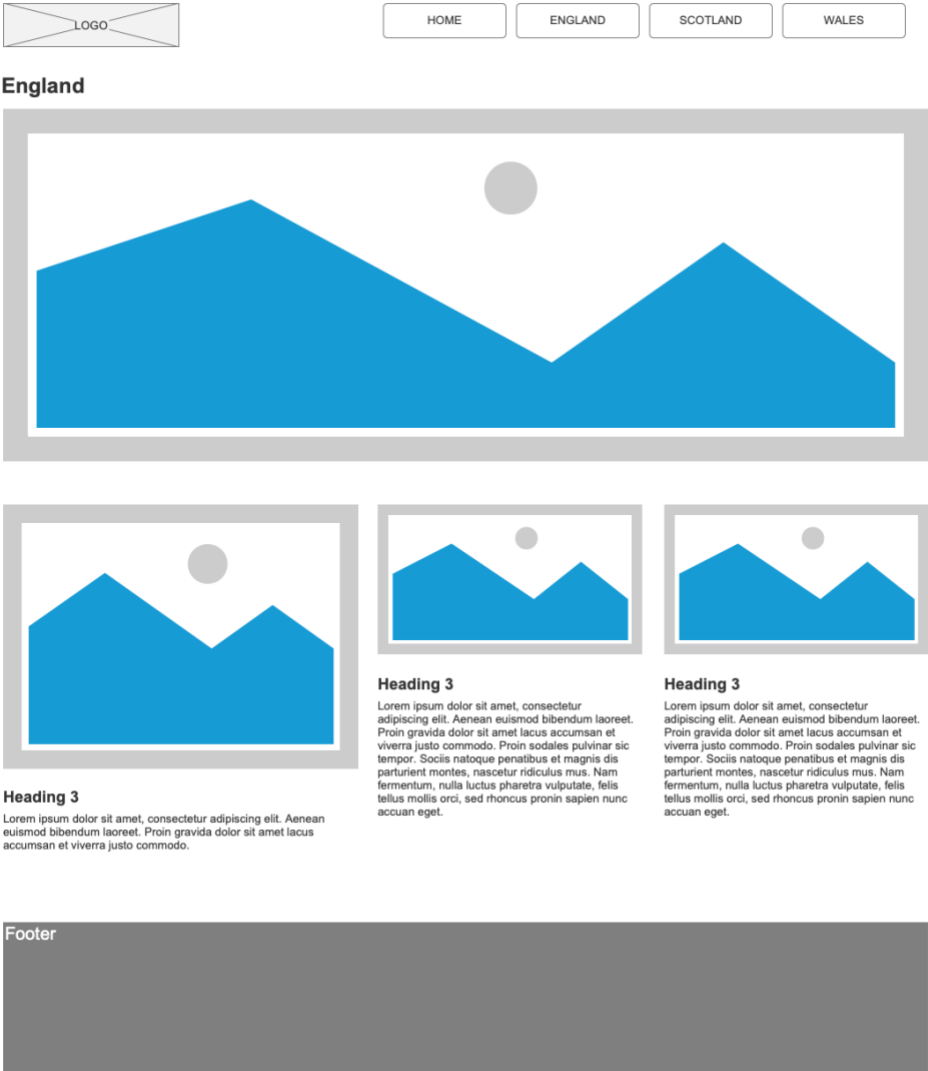

(**Please note** that at this stage the pages are basic wireframes (we will discuss what a wireframe is later in the module).

Below are examples of Home page and England page.

Home

<mark>England</mark>

We will spend the remaining time in the seminar creating the above website (four pages).
